PROFILE

I have run paid acquisition in Vietnam since 2021, starting as a media buyer on real estate lead generation and working since then across serviced apartments, travel, fashion and jewellery. Today I lead digital marketing for two jewellery brands at Three Trees Group, where I plan Meta and Google campaigns for conversations, registrations and bookings, and build the measurement behind them: GA4, Meta Pixel and Conversions API, Search Console and Google Business Profiles.

In each account I set the campaign goal on the step that matters to the business, check the numbers every day, and compare what the ad platform reports with the CRM. Most of my spend has been on Meta; my Google Ads experience is smaller. I work in English, remotely, and use AI daily for research, copy and data checks.

KEY RESULTS

- **25% lower cost per Messenger conversation** at the same daily spend after rebuilding a wrongly set creative as a Messages ad, ThreeTrees, July 2026 (≈ USD 1.37 → 1.02).
- **64% vs 3%** of form starts became members on the Lead objective against a campaign optimised for an earlier custom event, TeeTee&Co., October 2026.
- **523 members** by 7 Oct 2026 through a registration funnel I own end to end (ad → landing page → form → CRM). In a separate 21 Sep snapshot, 30 of 184 members (16%) had booked an experience session.
- **Tracking gap found:** reconciling CRM registrations with Pixel events showed Meta was seeing about 5% of page views behind a consent setup; the configuration was revised in October 2026.

EXPERIENCE

Digital Marketing Team Lead · Three Trees Group

Full time · May 2026 to Present

Hanoi · two retail jewellery brands, ThreeTrees and TeeTee&Co. · two media buyers plus content, design, sales and customer care

- Set objectives, budgets, test plans and the daily report for both brands; build launch campaigns in Ads Manager myself and review every change, while two media buyers run daily edits. ≈ USD 7.2k of Meta spend for ThreeTrees, late June to September 2026.
- Within two days the daily report showed that a new chat creative, launched under Sales and Traffic, had no conversations. We rebuilt it as a Messages ad; it brought 440 at ≈ USD 0.59 each and budget moved to it. Over the same days the other message campaigns improved about 7%.
- Own the TeeTee&Co. membership and workshop funnel: landing and invitation pages, registration form, FluentCRM with UTM and fbclid, email journeys, and Pixel plus Conversions API Lead events. ≈ USD 2.3 per member on the Lead objective, ≈ USD 7.5 blended (October 2026).
- Under my lead, a small Google Ads test ran for ThreeTrees (Search and Performance Max, ≈ USD 114, June to July 2026; Search CTR 3.9%; goals were contact and get directions actions, not leads).
- Set up the Google side of teeteeco.com: GA4 ecommerce events, Google Ads conversion tag, Search Console and bilingual sitemaps (pages indexed 57 → 83 in a week), Merchant Center feed with 33 products, and verified Business Profiles for both brands.
- Ran a test of 11 products over 20 days (a 3.7× spread in cost per message) and led the 2026 paid growth plan and an ads workflow assisted by AI in which AI recommends and I approve every change.

EXPERIENCE, CONTINUED

Founder & Digital Marketing Consultant · Welcome To Marketing

Freelance, alongside employment · 2021 to 2024

- Cixi Serviced Apartment: set up paid acquisition from launch; Click to Messenger at ≈ USD 0.19 per conversation (approximate, from memory; the account closed with the engagement).
- Consolism & Monolife (fashion): ads and online sales across some 13 ad accounts, ≈ USD 4.5k of spend (2023). S.QEEN (fashion): 148 conversations at ≈ USD 2.2 each (October 2024).
