PROFILE

Performance marketer since 2021, strongest in Meta acquisition and registration funnels. Lead two media buyers across two jewellery brands, connecting campaign decisions with landing pages, CRM and conversion tracking. Google experience covers Search, Performance Max and Display; retained cases show the scope and outcomes.

SELECTED CAMPAIGN EVIDENCE

- **About 31% more daily conversations at the same spend:** roughly 54 to 71 around a July budget reallocation at ThreeTrees. Observational comparison, not a controlled test; details in portfolio Case 1.
- **51 free membership registrations at about USD 2.30 each** on VND 3.05M, TeeTee&Co., 1 to 7 October 2026. Owned the landing page, CRM and measurement workflow.
- **Google Search and Performance Max:** led the June to July 2026 test; Search recorded 170 clicks at 3.9% CTR. The USD 114 test measured contact/directions actions, not verified leads.

EXPERIENCE

Digital Marketing Team Lead · Three Trees Group

Full time · May 2026 to Present

Hanoi · two retail jewellery brands, ThreeTrees and TeeTee&Co. · two media buyers plus content, design, sales and customer care

- Lead objectives, budgets, launches and reporting across both brands; review two media buyers and coordinate content, design and sales. ThreeTrees recorded 7,479 Messenger conversations at about USD 1.21 each, 1 July to 23 October 2026.
- Corrected a creative/objective mismatch and reallocated existing July budget. The rebuilt Messages ad recorded 440 conversations at about USD 0.59 each; used daily reports to guide the next allocation.
- Own TeeTee&Co. landing pages, forms, FluentCRM, email journeys, UTM/fbclid capture and Pixel/CAPI Lead events. Reconciled CRM with platform data to identify a consent-related gap; post-change coverage remains unverified.
- Led the ThreeTrees Google test and owned website measurement. Implemented GA4 events and Google Ads tags; distinguish order placement from confirmed payment when reviewing conversions.
- Built bilingual sitemaps and crawl fixes (57 to 83 indexed pages), a 33-product Merchant Center feed and verified Business Profiles for both brands.
- Compared 11 products with their own creatives over 20 days (3.7× spread in cost per message). Use AI for research, copy and checks, with human approval of campaign changes.
