October 2026

Application for Performance Marketing Specialist (Google Ads and Meta Ads)

Hi Meta Robotics team,

Meta Robotics needs someone who can connect ad decisions with what happens after an enquiry. That is the focus of my work across two jewellery brands: Meta acquisition, registration funnels and CRM measurement. I would bring that operating discipline to your discovery-session and enrolment journey.

1 · RESUME	My CV is attached (2 pages).
2 · PORTFOLIO	Attached (7 pages) and online: Meta and Google campaign records, a booking-flow review and a costed four-week pilot. The linked workbook lets you change margins, costs and capacity; it also includes a Search launch brief and ad drafts. Page 7 summarises the S$1,500 media proposal and its assumptions. Page 1 maps my evidence to your brief.
3 · MORE CONVERSATIONS, SAME BUDGET	At ThreeTrees I corrected a creative/objective mismatch and reallocated existing budget. July daily reports showed about 54 versus 71 conversations a day at the same daily spend: roughly 31% more. The rebuilt ad recorded 440 conversations at about USD 0.59 each. This is an operational comparison, not a controlled test; at Meta Robotics I would also track qualified enquiries, paid bookings and enrolment.
4 · AI IN MY WORKFLOW	I use AI beyond copy generation. My Taste Brief prototype combines Claude with Qloo data to produce podcast shortlists and ad-test briefs; page 5 links to the demo and code. I define the workflow, direct AI-assisted implementation and review the outputs. Website demos and an n8n lead-routing prototype show how I turn a marketing need into a working tool.
5 · COMPENSATION	SGD 2,000 a month for 20 hours a week, covering campaign management, optimisation, tracking and weekly reporting.
6 · AVAILABILITY	I can start on 2 November 2026, for 20 hours a week. Proposed hours: Monday to Friday, 8:00 to 10:00 AM and 7:00 to 9:00 PM Singapore time. I work from Hanoi, with weekly written updates in English and calls by arrangement in that overlap. We would agree response expectations outside these windows before starting.

Thank you for considering my application.

Best regards,

Tran The Long
