PROFILE

Performance marketer in paid acquisition since 2021. My strongest work is Meta campaigns and registration funnels: I lead two media buyers and connect ads, landing pages, CRM and conversion tracking for two jewellery brands. Google experience includes Search, Performance Max and Display; campaign records and measurement limits are detailed in my portfolio.

SELECTED CAMPAIGN EVIDENCE

- **7,479 Messenger conversations at about USD 1.21 each**, ThreeTrees, 1 July to 23 October 2026. Over 2,000 conversations in each full month, July to September, on comparable monthly spend.
- **51 free membership registrations on VND 3.05M** (about USD 2.30 each), TeeTee&Co., 1 to 7 October 2026. Separately, a mixed-source CRM snapshot on 21 Sep recorded 30/184 members booked (16.3%); these are different periods, not one paid-customer funnel.
- **Google Search and Performance Max campaign records:** about USD 114 combined spend, June to July 2026; 170 Search clicks at 3.9% CTR. Reported conversions were contact/directions actions, not verified leads.

EXPERIENCE

Digital Marketing Team Lead · Three Trees Group

Full time · May 2026 to Present

Hanoi · two retail jewellery brands, ThreeTrees and TeeTee&Co. · two media buyers plus content, design, sales and customer care

- Lead objectives, budgets, test plans and daily reporting for both brands. Build launch campaigns in Ads Manager and review work by two media buyers; coordinate with content, design, sales and customer care.
- Reallocated existing July budget after correcting a creative/objective mismatch. Daily reports around the change showed about 54 versus 71 conversations a day on the same daily spend; an operational comparison, not a controlled experiment. The rebuilt ad recorded 440 conversations at about USD 0.59 each.
- Own the TeeTee&Co. registration funnel: landing pages, forms, FluentCRM with UTM and fbclid, email journeys, Pixel and Conversions API Lead events. CRM reconciliation exposed a consent-related tracking gap; post-change coverage still needed verification.
- Led the ThreeTrees Google test; owned the website and measurement work. Paid campaign outcomes are reported separately from SEO and local listing implementation.
- Set up GA4 ecommerce events, Google Ads conversion tag, Search Console and bilingual sitemaps (57 → 83 indexed pages), a 33-product Merchant Center feed and verified Business Profiles for both brands.
- Compared 11 products with their own creatives over 20 days (a 3.7× spread in cost per message) and led the 2026 paid growth plan and an ads workflow assisted by AI in which AI recommends and I approve every change.
