October 2026

Application for Performance Marketing Specialist (Google Ads and Meta Ads)

Hi Meta Robotics team,

Meta Robotics needs someone who connects advertising decisions with lead quality, bookings and enrolment. I bring Meta and Google campaign experience, ownership of landing pages and CRM measurement, and practical AI-assisted delivery. I would apply that operating discipline to your discovery-session and enrolment journey.

1 · RESUME	My CV is attached (2 pages), covering paid acquisition since 2021, team leadership and ownership of landing pages, CRM and measurement.
2 · PORTFOLIO	The attached seven-page portfolio separates retained campaign records, candidate-reported results and proposed work. Pages 2–3 present a lead-to-enrolment case and its Google Search subset in USD. Pages 6–7 set out a separate SGD pilot for Meta Robotics, with an editable workbook and Search ad drafts.
3 · MORE ENROLMENTS, SAME SPEND	In the acquisition case I report, net enrolments increased from 14 to 24 at USD 3,000 media spend per period. Media CAC fell from USD 214.29 to USD 125.00, a 41.7% reduction. Search contributed nine of the 24 enrolments; its qualified enquiries rose from 24 to 60 at unchanged spend. The portfolio identifies the source and limits of this comparison.
4 · AI IN MY WORKFLOW	I define marketing workflows, direct AI-assisted implementation and review outputs. Taste Brief, website demos and an n8n lead-routing prototype show working examples. A separate evaluation I report covers 50 enquiries: 150 to 60 minutes including review, with two initial labels corrected. This evaluation is distinct from the prototype software checks.
5 · COMPENSATION	SGD 2,000 a month for 20 hours a week, covering campaign management, optimisation, tracking and weekly reporting. This proposed fee is separate from the USD campaign case.
6 · AVAILABILITY	I can start on 2 November 2026, for 20 hours a week. Proposed hours: Monday to Friday, 8:00–10:00 AM and 7:00–9:00 PM Singapore time, from Hanoi. Written updates in English and calls within agreed overlap; we would agree customer-response ownership outside these windows.

Thank you for considering my application.

Best regards,

Tran The Long
