PROFILE

Performance marketer working in paid acquisition since 2021, across six industries. I currently lead Meta campaigns and the registration funnel for two jewellery brands in Hanoi, with earlier Google Search and Display experience. My focus is connecting campaign objectives, tracking and sales follow up so budget decisions reflect the action the business needs.

SELECTED CAMPAIGN EVIDENCE

- **7,479 Messenger conversations at about USD 1.21 each**, ThreeTrees, 1 July to 23 October 2026. July to September each exceeded 2,000 conversations on comparable monthly spend.
- **51 free membership registrations on VND 3.05M** (about USD 2.30 each), TeeTee&Co., 1 to 7 October 2026. A separate comparison on 3 to 8 October recorded 56/87 form starts completed versus 3/113 on a custom-event campaign; an observational comparison, not a controlled test.
- **CRM versus Pixel reconciliation exposed a tracking gap:** about 5% of page views reached Meta behind a consent configuration. The setup was revised; post-change coverage still needed verification.

EXPERIENCE

Digital Marketing Team Lead · Three Trees Group

Full time · May 2026 to Present

Hanoi · two retail jewellery brands, ThreeTrees and TeeTee&Co. · two media buyers plus content, design, sales and customer care

- Lead paid acquisition for both brands: objectives, budgets, test plans and the daily report; build launch campaigns in Ads Manager myself and review every change made by two media buyers. Monthly reporting separates conversations, registration and downstream business outcomes.
- Caught a chat creative launched under the wrong objective within two days, rebuilt it as a Messages ad and moved budget to it: it became the top ad of July with 440 conversations at about USD 0.59 each.
- Own the TeeTee&Co. membership and workshop funnel: landing and invitation pages, registration form, FluentCRM with UTM and fbclid, email journeys, and Pixel plus Conversions API Lead events. ≈ USD 2.3 per member on the Lead objective, ≈ USD 7.5 blended (October 2026).
- Under my lead, a small Google Ads test ran for ThreeTrees (Search and Performance Max, about USD 114 total, June to July 2026; Search CTR 3.9%; conversion goals were contact and get directions actions, not verified leads).
- Set up the Google side of teeteeco.com: GA4 ecommerce events, Google Ads conversion tag, Search Console and bilingual sitemaps (pages indexed 57 → 83 in a week), Merchant Center feed with 33 products, and verified Business Profiles for both brands.
- Compared 11 products with their own creatives over 20 days (a 3.7× spread in cost per message) and led the 2026 paid growth plan and an ads workflow assisted by AI in which AI recommends and I approve every change.
