October 2026

Application for Performance Marketing Specialist (Google Ads and Meta Ads)

Hi Meta Robotics team,

Meta Robotics needs someone who connects advertising decisions with lead quality, bookings and enrolment. I bring Meta and Google campaign experience, landing-page and CRM ownership, and post-fix tracking reconciliation using consent-eligible outcomes. My proposed first step is to validate your booking signal and unit economics, then test a focused acquisition offer.

1 · RESUME	My attached two-page CV covers paid acquisition since 2021, leadership of two media buyers, and ownership of landing pages, CRM and measurement.
2 · PORTFOLIO	The seven-page portfolio covers campaign outcomes, tracking implementation and AI-assisted work samples. Pages 6–7 propose an RDA pilot tailored to Meta Robotics, with a six-tab workbook for economics, delivery, QA, evidence, Search setup and ad copy.
3 · MORE ENROLMENTS, SAME SPEND	In July–August 2026, I kept media spend at USD 3,000 per month while refining Search exclusions, lead qualification and creative review. Net enrolments rose from 14 to 24 and media CAC fell 41.7%, using the same 30-day outcome window per enquiry. Search contributed nine of the later enrolments. These are candidate-confirmed results; the portfolio states the cohort, reconciliation and source limits.
4 · AI IN MY WORKFLOW	I define marketing workflows, direct AI-assisted implementation and review outputs. Taste Brief, two website demos and an n8n lead-routing prototype are linked in the portfolio. A separate candidate-reported evaluation covers 50 enquiries: 150 to 60 minutes including review, with two initial labels corrected.
5 · COMPENSATION	SGD 2,000 a month for 20 hours a week of campaign management, optimisation, tracking and reporting. The pilot model separately allows SGD 300 for 12 later follow-up hours; advertising and other pilot costs are itemised on portfolio page 7.
6 · AVAILABILITY	Available from 2 November 2026. Proposed hours: Monday–Friday, 8:00–10:00 AM and 7:00–9:00 PM Singapore time, from Hanoi. Written updates in English and calls within agreed overlap. Centre owners would cover customer responses and alerts outside these windows.

Thank you for considering my application.

Best regards,

Tran The Long
