PROFILE

Performance marketer with five years of paid acquisition across six industries and about USD 770K of ad budget managed since 2021 (approx.: USD 577K on Meta, USD 115K on Google, USD 77K on Shopee and TikTok). I started in real estate lead generation on projects of Vietnam's largest developers, including Vinhomes, Novaland, Sun Group and Masterise, then ran ecommerce, travel, hospitality and B2B accounts.

Today I lead paid growth for two jewellery brands at Three Trees Group: 7,479 customer conversations and 645 leads from July to October 2026, with the tracking built in house (GA4, Meta Pixel and Conversions API, Search Console, Business Profiles). I typically keep ad spend at about 6 to 10% of real revenue, work in English, remotely, and use AI daily for research, copy and data checks.

KEY RESULTS

- **7,479 Messenger conversations** for ThreeTrees in under four months (July to 23 October 2026), above 2,000 a month from July to September on flat spend, at about USD 1.21 each.
- **6.65M impressions and 206K clicks** across ThreeTrees and TeeTee&Co. in the same period, on about USD 12.1K of Meta spend.
- **64% vs 3%** of form starts became members on the Lead objective against a campaign optimised for an earlier custom event, TeeTee&Co., October 2026.
- **645 leads and 523 members** through a registration funnel I own end to end (ad → landing page → form → CRM), TeeTee&Co., September to October 2026.
- **Tracking gap found:** reconciling CRM registrations with Pixel events showed Meta was seeing about 5% of page views behind a consent setup; the configuration was revised in October 2026.

EXPERIENCE

Digital Marketing Team Lead · Three Trees Group

Full time · May 2026 to Present

Hanoi · two retail jewellery brands, ThreeTrees and TeeTee&Co. · two media buyers plus content, design, sales and customer care

- Lead paid acquisition for both brands: objectives, budgets, test plans and the daily report; build launch campaigns in Ads Manager myself and review every change made by two media buyers. ThreeTrees: 7,479 conversations on about USD 9.1K, July to October 2026.
- Caught a chat creative launched under the wrong objective within two days, rebuilt it as a Messages ad and moved budget to it: it became the top ad of July with 440 conversations at about USD 0.59 each.
- Own the TeeTee&Co. membership and workshop funnel: landing and invitation pages, registration form, FluentCRM with UTM and fbclid, email journeys, and Pixel plus Conversions API Lead events. ≈ USD 2.3 per member on the Lead objective, ≈ USD 7.5 blended (October 2026).
- Under my lead, a small Google Ads test ran for ThreeTrees (Search and Performance Max, ≈ USD 114, June to July 2026; Search CTR 3.9%; goals were contact and get directions actions, not leads).
- Set up the Google side of teeteeco.com: GA4 ecommerce events, Google Ads conversion tag, Search Console and bilingual sitemaps (pages indexed 57 → 83 in a week), Merchant Center feed with 33 products, and verified Business Profiles for both brands.
- Ran a test of 11 products over 20 days (a 3.7× spread in cost per message) and led the 2026 paid growth plan and an ads workflow assisted by AI in which AI recommends and I approve every change.
