To the hiring team, Meta Robotics, Singapore

October 2026

Application for Performance Marketing Specialist (Google Ads and Meta Ads)

Hi Meta Robotics team,

I have worked in paid acquisition since 2021 and now lead Meta campaigns and the registration funnel for two jewellery brands in Hanoi. I would like to bring that combination of campaign optimisation, tracking and sales follow up to Meta Robotics, helping your team turn parent enquiries into paid sessions and enrolments.

1 · RESUME	My CV is attached (2 pages).
2 · PORTFOLIO	Attached (7 pages, with the JD match on page 1), and online at the link above. I also reviewed your live ads and /screentime.html, where the Meta Pixel appears to start only after a WhatsApp tap. I would confirm this in your account first.
3 · MORE CONVERSATIONS, SAME BUDGET	In July 2026 our daily report caught a ThreeTrees chat creative under the wrong objective. I rebuilt it as a Messages ad and moved existing budget to it; it recorded 440 conversations at about USD 0.59 each. Separately, the account exceeded 2,000 conversations in each of July, August and September on comparable monthly spend. These are conversation results, not a claim of better qualified leads.
4 · AI IN MY WORKFLOW	I use Claude and ChatGPT for research, copy options and daily checks for unusual numbers. I check every suggestion against the source data before I approve a campaign change.
5 · COMPENSATION	SGD 2,000 a month for 20 hours a week, covering campaign management, optimisation, tracking and weekly reporting.
6 · AVAILABILITY	I can start on 2 November 2026. My proposed schedule is Monday to Friday, 8:00 to 10:00 AM and 7:00 to 9:00 PM Singapore time, working from Hanoi (GMT+7). Calls by arrangement within that overlap; weekly written updates in English.

Thank you for considering my application.

Best regards,

Tran The Long
