PROFILE

I have run paid acquisition in Vietnam since 2021, starting as a media buyer on real-estate lead generation and working since then across serviced apartments, travel, fashion and jewellery. Today I lead digital marketing for two jewellery brands at Three Trees Group, where I plan Meta and Google campaigns for conversations, sign-ups and bookings, and build the measurement behind them: GA4, Meta Pixel and Conversions API, Search Console and Google Business Profiles.

The habit I bring to every account is simple: optimise for the action that pays, read the numbers every day, and reconcile what the platform reports with what the business records. My spend has been mostly on Meta; my Google Ads work is smaller, and I say so. I work in English, remotely, and use AI every day for research, copy and data checks.

KEY RESULTS

- **−25% cost per Messenger conversation** at the same daily spend after rebuilding a mis-set creative as a Messages ad, ThreeTrees, July 2026 (≈ USD 1.37 → 1.02).
- **64% vs 3%** of form starts became members on the Lead objective against a campaign optimised for an earlier custom event, TeeTee&Co., October 2026.
- **523 members** by 7 Oct 2026 through a sign-up funnel I own end to end (ad → landing page → form → CRM). In a separate 21 Sep snapshot, 30 of 184 members (16%) had booked an experience session.
- **Tracking gap found:** reconciling CRM sign-ups with Pixel events showed Meta was seeing about 5% of page views behind a consent set-up; the configuration was revised in October 2026.

EXPERIENCE

Digital Marketing Team Lead · Three Trees Group

Full-time · May 2026 – Present

Hanoi · two retail jewellery brands, ThreeTrees and TeeTee&Co. · two media buyers plus content, design, sales and customer care

- Set objectives, budgets, test plans and the daily report for both brands; build launch campaigns in Ads Manager myself and review every change, while two media buyers run daily edits. ≈ USD 7.2k of Meta spend for ThreeTrees, late June – September 2026.
- Caught our own objective mismatch within two days: a new chat creative launched under Sales and Traffic brought no conversations; rebuilt as a Messages ad it brought 440 at ≈ USD 0.59 each and budget moved to it. Over the same days the other message campaigns improved about 7% (an observational comparison).
- Own the TeeTee&Co. membership and workshop funnel: landing and invitation pages, sign-up form, FluentCRM with UTM and fbclid, email journeys, and Pixel plus Conversions API Lead events. ≈ USD 2.3 per member on the Lead objective, ≈ USD 7.5 blended (October 2026).
- Under my lead, a small Google Ads test ran for ThreeTrees (Search and Performance Max, ≈ USD 114, June – July 2026; Search CTR 3.9%; goals were contact and get-directions actions, not leads).
- Set up the Google side of teeteeco.com: GA4 e-commerce events, Google Ads conversion tag, Search Console and bilingual sitemaps (pages indexed 57 → 83 in a week), Merchant Center feed with 33 products, and verified Business Profiles for both brands.
- Ran an 11-product test over 20 days (a 3.7× spread in cost per message) and led the 2026 paid growth plan and an AI-assisted ads workflow in which AI recommends and I approve every change.

EXPERIENCE, CONTINUED

Founder & Digital Marketing Consultant · Welcome To Marketing

Freelance, alongside employment · 2021 – 2024

- Cixi Serviced Apartment: set up paid acquisition from launch; Click-to-Messenger at ≈ USD 0.19 per conversation (approximate, from memory; the account closed with the engagement).
- Consolism & Monolife (fashion): ads and online sales across some 13 ad accounts, ≈ USD 4.5k of spend (2023). S.QEEN (fashion): 148 conversations at ≈ USD 2.2 each (October 2024).
