To the hiring team, Meta Robotics, Singapore

October 2026

Application for Performance Marketing Specialist (Google Ads and Meta Ads)

Hi Meta Robotics team,

Your brief asks for more than launching ads: it asks for better leads, disciplined testing and ownership of the path to enrolment. Since 2021 I have worked in paid acquisition; today I lead Meta campaigns and the registration funnel for two jewellery brands. That combination of campaign decisions, CRM and measurement is what I would bring to Meta Robotics.

1 · RESUME	My CV is attached (2 pages).
2 · PORTFOLIO	Attached (7 pages, with the JD match on page 1), and online at the link above. I also reviewed your live ads and /screentime.html, where the Meta Pixel appears to start only after a WhatsApp tap. I would confirm this in your account first.
3 · MORE CONVERSATIONS, SAME BUDGET	At ThreeTrees I corrected a creative/objective mismatch and reallocated existing budget. July daily reports around the change showed about 54 versus 71 conversations a day on the same daily spend; the rebuilt ad recorded 440 conversations at about USD 0.59 each. This was an operational comparison, not a controlled test or proof of lead quality. For you, I would assess improvement against paid bookings and enrolments.
4 · AI IN MY WORKFLOW	I use Claude and ChatGPT for research, copy variants and anomaly checks. I verify suggestions against source data and approve campaign changes myself. My portfolio includes a proposed Search pilot and tracking acceptance checks, clearly separated from past results.
5 · COMPENSATION	SGD 2,000 a month for 20 hours a week, covering campaign management, optimisation, tracking and weekly reporting.
6 · AVAILABILITY	I can start on 2 November 2026. My proposed schedule is Monday to Friday, 8:00 to 10:00 AM and 7:00 to 9:00 PM Singapore time, working from Hanoi (GMT+7). Calls by arrangement within that overlap; weekly written updates in English.

Thank you for considering my application.

Best regards,

Tran The Long
